Yellowstone Winter Wonderland 7 Day Tour from Jackson to Jackson

Sleigh bells ring, are you listening? In the peaceful quiet of winter, it's also easier to hear the howl of the coyote, the scream of the bald eagle, and the distinct crunch of elk hooves trudging through the fallen snow. It's a little known secret that one of the coolest times of year to see the wonders of Yellowstone is when its golden hues turn to glistening white. Fewer crowds of people are replaced with bigger herds of bison while the favorite modes of transportation become snowcoaches, skis, and snowshoes. Get ready to gush as you see the steaming spurts of Old Faithful, the thundering Lower Falls, and the wildlife-filled Lamar Valley in a totally different light. This Yellowstone vacation takes you to the winter wonderlands of Wyoming, Montana, and Idaho where additional highlights include traveling through the peaks of the Grand Tetons and a sleigh ride through Jackson's National Elk Refuge. Jingle all the way.

Globus is partnering with the National Park Foundation to provide unique tour experiences in America's national parks. Globus takes you to the most spectacular national parks in America including the Grand Canyon, Yellowstone, Yosemite, Bryce and Zion National Parks, and many more must-see national treasures. TOUR HIGHLIGHT

NATURAL WONDERS Experience the otherworldly beauty of Yellowstone in winter with a guided walking tour of the Upper Geyser Basin. The greatest geothermal basin on Earth, this region also features the extraordinary sights of world-famous Old Faithful, which erupts with regularity throughout the day, as well as other less predictable geysers, including Castle, Daisy, Riverside, and Grand Geysers. An incredible and invigorating experience.

At the Grand Canyon of the Yellowstone, see the thundering Lower Falls which are nearly twice the height of Niagara (weather permitting). Have your cameras ready as winter is ideal for wildlife spotting in the bright reflective snow. Later, enjoy a box lunch while continuing to the northern part of the park for mesmerizing Mammoth Hot Springs, where heat, water, limestone, and rock fractures have created a unique terrace feature. Get a different perspective of the Tetons as we travel along Idaho's western side edge of Yellowstone and the western slope of the Tetons for breathtaking views of the highest peak on the range: Grand Teton itself, which rises to an elevation of 13,777 feet above sea level. Tonight, celebrate your adventure with a festive farewell dinner at a local restaurant.

SPECTACULAR SIGHTS The Grand Teton Range is the youngest mountain range in the Rockies and some of the youngest peaks in the world. Mere youngsters, these jagged masterpieces born of earthquakes and glaciers just 2 million years ago. With eight peaks towering over 12,000 feet, the grandest of all is Grand Teton itself at over 13,700 feet. So treasured is this magnificent national park that three presidents (Coolidge, FDR, and Truman) all fiercely fought for more land to be protected and preserved in the 310,000-acre Grand Teton National Park enjoyed today.
